

ADAM UMBACH

Through my works, I invite viewers to contemplate the rhythms of nature and the human experience, understanding how change and continuity shape our lives. This exhibition offers a space to reflect on the past while embracing the present, aligning with my exploration of these themes.

My paintings explore the balance between change and continuity, capturing childhood memories through a combination of photorealism and expressive mark-making. Reflecting on how childhood symbols provide comfort amid life's changes, my work underscores how the past influences our present and future.
